Dist. A'bad-431115

The Central library of the college was established in 1994, since then library has made consistent progress in terms of collection of books, periodicals, E-Resources & services. The college library has furnished room of 1200 sq. ft. area. Its provides open access facilities which helps easy access and use of the library as a learning knowledge center which have **partially** automated in 2015. It uses **ILMS software named "SOUL" with version of 2.0**. The second version of Software for University Libraries (SOUL) is a state-of-the-art integrated library management software designed and developed by INFLIBNET Centre based on requirements of College, University and other academic libraries. It is user-friendly software developed to work under client-server environment. The software is compliant to international standards for bibliographic formats and circulation protocols. After a comprehensive study, discussions and deliberations with the senior professionals of the contry, the software was designed to automate all house-keeping operations of library. The first version o software SOUL 1.0 was released during CALIBER 2000 after second version of the software SOUL 2.0 was released in January 2009.

#### **About SOUL 2.0 :-**

#### **Major Features and Functionalities:-**

- UNICODE based multilingual support for Indian and foreign languages.
- Compliant to International Standards such as MARC21, AACR-2, MARXML.
- Compliant ot NCLIP 2.0 and SIP 2 protocol for RFID and other related applications especially for electronic surveillance and self check-out & check-in.
- Client-server based architecture, user- friendly interface that does not require extensive training.
- Supports multi-platform for bibliographic database such as MySQL or any other RDBMS.
- Supports cataloguing of electronic resources such as e-journals, e-books, virtually any type of material.
- Supports requirements of digital library and facilitate link to full text articles and other digital objects.

  
Principal

#### ❖ Acquisition-

Acquisition module facilitates automating the process ordering, receipt payment and budget control. The module enables library staff to handle all major functions related to acquisition

- Suggestions management
- Auto generation of letter number
- Order processing, cancellation and reminders
- Master files such as currency, vendors, publishers etc.
- Receipt, payment and budgetary control.
- Reports
- Auto accessioning.

#### ❖ Catalogue-

Catalogue module is used for retrospective conversion of library resources. It also facilitates library staff to process the newly acquired library resources. The salient features of catalogue module are:

- Allows cataloguer to create their own templates for data entry for different types of library resources.
- Different templates for leaders and fixed fields of MARC21 records.
- Allows user-generated customized reports.
- Facilitates authority database of person name, corporate body, subject headings and series name.
- Supports copy cataloguing in MARC 21 format by using ISO-2709 standard.
- Supports master database of publishers.
- Multi-lingual database by using Unicode character set
- Supports global search and replace functionalities
- File attachment, catalogue card printing

#### ❖ Circulation-

This module takes care of all possible functions of circulation. Utmost care was taken to design this module with built-in functionalities for membership management, maintenance and status of the items. The

  
Principal

Circulation Module is fully compliant with the NISO Circulation and Interchange Protocol (NCIP) version 2.0 and SIP 2 protocol for electronic surveillance and RFIF based transaction of the items. Major Functions of the circulation module are-

- Membership
- Inter-library loan
- Reminder
- Maintenance of the items such as binding, lost, replace, missing withdraw etc
- Stock verification
- Transaction
- Overdue charges
- Search status
- Book bank/Group issue
- Customize member card
- Report generation based on the various requirements
- Import members from excelworksheet

#### ❖ On-Line Public Access Catalogue (OPAC)-

One of the major attractions of SOUL is its robust on-line public access catalogue (OPAC). The OPAC has simple and advanced search facility with minimum information of documents available in database by author, title, corporate body, conference name, subject heading, keywords, class number, series name, accession number or combination of any of two or more information. OPAC offers the following functionalities.

- Simple Search
- Boolean Search
- Advanced Boolean Search
- Displaying and downloading of records in MS Excel, PDF or MARCXML
- Web-based member interface through OPAC
- Search support for the items that are in the acquisition process in the library

  
Principal

College Deogaon R. Tq. Kannad Dist. Aurangabad-431115

#### ❖ Serial Control-

Managing serials is the most complicated job for a library. The module keeps track of serial in the library effectively and efficiently. The serial control module is developed based on the KARDES system and has following functions built into it.

- Suggestions management
- Subscriptions management
- Cataloguing of electronic journals
- Reminder, binding, along with history
- MARC21 entry/edit option
- Master databases
- Article indexing of journals/books
- Check-in of individual issues of journals
- Export/import using ISO2709 bibliographic exchange format

#### ❖ Administration-

The module is divided into three major sub-modules, namely User management, System parameters and Masters. The Administration module offers following features.

- Grouping of users based on the policy
- Transaction level security to users
- Transactional rights over the systems
- Various configuration settings such as labels, e-mail and other parameters related to the software use
- Common master databases for all the modules and
- Database backup module.
