N-List
National Library and Information Services
Infrastructure for Scholarly Content
extending access to e-Resources to colleges in India

About N-LIST

Background

The Project entitled "National Library and Information Services Infrastructure for Scholarly Content (N-LIST)", being jointly executed by the e-ShodhSindhu Consortium, INFLIBNET Centre and the INDEST-AICTE Consortium, IIT Delhi provides for i) cross-subscription to e-resources subscribed by the two Consortia, i.e. subscription to INDEST-AICTE resources for universities and e-ShodhSindhu resources for technical institutions; and ii) access to selected e-resources to colleges. The N-LIST project provides access to e-resources to students, researchers and faculty from colleges and other beneficiary institutions through server(s) installed at the INFLIBNET Centre. The authorized users from colleges can now access e-resources and download articles required by them directly from the publisher's website once they are duly authenticated as authorized users through servers deployed at the INFLIBNET Centre.

N-LIST: Four Components

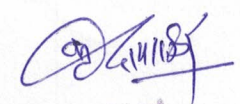

The project has four distinct components, i.e. i) to subscribe and provide access to selected e-ShodhSindhu e-resources to technical institutions (IITs, IISc, IISERs and NITs) and monitor its usage; ii) to subscribe and provide access to selected INDEST e-resources to selected universities and monitor its usage; iii) to subscribe and provide access of selected e-resources to Govt./ Govt.-aided colleges and monitor its usage; and iv) to act as a Monitoring Agency for colleges and evaluate, promote, impart training and monitor all activities involved in the process of providing effective and efficient access to e-resources to colleges.

The INDEST and UGC-INFONET are jointly responsible for activity listed at i) and ii) above. The INFLIBNET Centre, Gandhinagar is responsible for activities listed at iii) and iv) above. The INFLIBNET Centre is also responsible for developing and deploying appropriate software tools and techniques for authenticating authorized users.

Note: From Year 2014, N-LIST programme is subsumed under e-ShodhSindhu Consortium as college component. The colleges (except Agriculture, Engineering, Management, Medical, Pharmacy, Dentistry and Nursing) in India are eligible to get access e-resources under N-LIST programme.

Legal Information Access of Lawyers in Private Practice: A Case Study of the Kingdom of Eswatini

Mathabela Ntombikayise N.^{1*}
¹Assistant Librarian, Reader's Services-Law Collection, University of Eswatini Libraries, Kingdom of Eswatini, Kwaluseni, Swaziland

*Email id: mathax@uniswa.sz
 Received: 18 December, 2018, Accepted: 15 February, 2019.

Abstract

For a society to have justice, it is important to ensure access to timely legal information. Eswatini has a legal professional body, the Eswatini Law Society (ELS) where all practicing lawyers are members. Its main role is to promote and support lawyers in various aspects of their profession. Access to quality legal information for its membership is supposed to be one of the ELSs tasks. It is a general expectation that information is a fundamental right for all; hence, States have to ensure information provision. Therefore, access to legal information is acknowledged as playing a significant role in the justice service delivery hence libraries play a significant role. The study investigated four main libraries that have legal resources accessible to lawyers in the country with the aim of assessing access by private practicing lawyers. These are the University of Eswatini libraries, Eswatini National Library Services, Ministry of Justice Library as well as the Eswatini Law Society Library. The objective of the study was to examine the information needs and legal information access of private practicing lawyers. In this regard, libraries with law collections accessible to lawyers including the ELS library were investigated to determine the extent to which such information is accessible. Wilson's 1999 model of information behaviour was used as it was seen as comprehensive in human information behaviour covering information needs and factors of information access. The study found that very few of the lawyers who responded to the questionnaire access legal information from the four libraries identified in the study. The major challenge being that legal information resources are inadequate or outdated and there is a lack of adequate electronic legal resources in all the collections.

Keywords

Information access, information needs, information seeking behaviour, Legal information resources, Eswatini.

Cultural Studies and Political Economy : Toward a New Integration

Series: [Critical Media Studies](#)

Authors: [Robert E. Babe](#)

Publication Information: Lanham, MD : Lexington Books, 2009

Resource Type: eBook

Description: This book addresses the notorious split between the two fields of cultural studies and political economy. Drawing on the works of Harold Innis, Theodor Adorno, Raymond Williams, Richard Hoggart, E.P. Thompson, and other major theorists in the two fields, Robert E. Babe shows that political economy can be reconciled to certain aspects of cultural studies, particularly with regards to cultural materialism. Uniting the two fields has proven to be a complex undertaking though it makes practical sense, given the close interaction between political economy and cultural studies. Babe examines the evolution of cultural studies over time and its changing relationship with political economy. The intersections between the two fields center around three subjects: the cultural biases of money, the timespace dialectic, and the dialectic of information.

ABOUT N-LIST

Home | N-LIST

About N-LIST

Background

The Project entitled "National Library and Information Services Infrastructure for Scholarly Content (N-LIST)", being jointly executed by the e-ShodhSindhu Consortium, INFLIBNET Centre and the INDEST-AICTE Consortium, IIT Delhi provides for i) cross-subscription to e-resources subscribed by the two Consortia, i.e. subscription to INDEST-AICTE resources for universities and e-ShodhSindhu resources for technical institutions; and ii) access to selected e-resources to colleges. The N-LIST project provides access to e-resources to students, researchers and faculty from colleges and other beneficiary institutions through server(s) installed at the INFLIBNET Centre. The authorized users from colleges can now access e-resources and download articles required by them directly from the publisher's website once they are duly authenticated as authorized users through servers deployed at the INFLIBNET Centre.

N-LIST: Four Components

The project has four distinct components, i.e. i) to subscribe and provide access to selected e-ShodhSindhu e-resources to technical institutions (IITs, IISc, IISERs and NITs) and monitor its usage; ii) to subscribe and provide access to selected INDEST e-resources to selected universities and monitor its usage; iii) to subscribe and provide access of selected e-resources to Govt./ Govt.-aided colleges and monitor its usage; and iv) to act as a Monitoring Agency for colleges and evaluate, promote, impart training and monitor all activities involved in the process of providing effective and efficient access to e-resources to colleges.

The INDEST and UGC-INFONET are jointly responsible for activity listed at i) and ii) above. The INFLIBNET Centre, Gandhinagar is responsible for activities listed at iii) and iv) above. The INFLIBNET Centre is also responsible for developing and deploying appropriate software tools and techniques for authenticating authorized users.

Note: From Year 2014, N-LIST programme is subsumed under e-ShodhSindhu Consortium as college component. The colleges (except Agriculture, Engineering, Management, Medical, Pharmacy, Dentistry and Nursing) in India are eligible to get access e-resources under N-LIST programme.
